- FAA Order 1400.9B
- GIS Assessment Mapping and Analysis

For more than 25 years, Milligan Consulting has helped public agencies and organizations create accessible, inclusive environments through expert ADA compliance services. Servicing government, nonprofit, and private sector clients nationwide, Milligan brings deep knowledge of the Americans with Disabilities Act and a practical, solutions-focused approach.

Milligan partners with clients to assess facilities, vehicles, policies and programs, identifying compliance gaps and delivering clear, actionable recommendations. Services include policy document reviews, accessibility assessments, public participation planning, and the development of implementation strategies that are both achievable and sustainable.

Using a proprietary GIS-based ADA facilities inventory tool, Milligan provides efficient documentation, mapping, and analysis of accessibility conditions. This technology-driven approach helps clients quickly understand priorities, track progress, and plan improvements with confidence.

Milligan's experienced, multidisciplinary team blends auditing, transportation, and civil rights expertise with hands-on federal ADA compliance experience. Clients include municipalities, airports, transit agencies, and state governments which rely on Milligan for practical guidance, reliable results, and long-term compliance support.
